PROFILE

Full-Stack Web Developer who are passionate about building scalable, high-performance, and user-focused applications. Proficient in modern frontend frameworks (React, Next.js, Vue) and backend technologies (Node.js, Laravel, Flask), with strong expertise in databases including MySQL, PostgreSQL, MongoDB, and Firebase. Experienced in Docker, Git/GitHub, and Redis for performance optimization. Also engaged in IoT projects, game development, and applying emerging technologies to create innovative, real-world solutions.

WORK EXPERIENCE

LogicBase Interactive Ent. - Web Developer Intern

01/2025 - 05/2025

Assisted in developing and maintaining web applications using Laravel and Next.js, gaining hands-on experience collaborating with a large development team on front-end and back-end integration.

NON-PROFESSIONAL WORK EXPERIENCE

Computer Specialist - Repair | Troubleshoot

2020 - Present

I specialize in building and troubleshooting computers from families, peers and even colleagues, handling hardware and software issues. From resolving system errors to even fixing BIOS failures, I've honed my skills through hands-on experience since building my first PC from scratch at age 16.
