PROFILE

My name is Djeikuje Nickolai C. Gacus. 22 years old, Male, I live in Valencia City, Bukidnon, Philippines. I am passionate about Web development, IoT-Driven Projects, game development and ethical hacking. My curiosity for technology drives me to explore its evolving landscape and master diverse aspects of the field.

EXPERIENCE IN IT FIELD

Web Development

I have expertise in HTML, CSS, JavaScript, Laravel, React, Vite, and TypeScript, with database skills in MySQL and MongoDB. My experience includes multi-tenancy, IoT-driven projects, and Machine Learning integration. I create efficient, scalable solutions tailored to modern web application demands.

Computer Support and Services

I specialize in building and troubleshooting computers, handling hardware and software issues. From fixing BIOS update failures to resolving system errors, I've honed my skills through hands-on experience since building my first PC from scratch at age 18.

Game Development

I have experience creating games in Java, including a 2D adventure game. I know how to mod games made with Ren'Py, Unity, RPG Maker, and Kirikiri engines.

Video and Photo Editing

I have experience editing videos with Adobe Premiere and basic skills in After Effects. I also have experienced in editing photos using Photoshop or Paint.NET

PROJECTS

- Air Quality Monitoring and Forecasting
- Java - 2D Pixel Adventure Game
- WebApp Multi-Tenancy Architecture
- WebApp Booking Reservation System
